

Do you have a dog that loves the attention of people of all ages? Does your dog have the personality and manners to be suitable for dog therapy? Are you as the handler comfortable with therapy work and how to interact?

Come learn more about the requirements, types of visits, dog stress points, and being successful in getting started. We will do some drills and mock-testing to get your dog closer to passing the necessary evaluations for being a good therapy dog.

There is tremendous joy for all types of pet therapy visits (in hospitals, with veterans, kids programs, hospice, colleges). The reward is plentiful!

4 one hour workshops

Once a week for 4 weeks.

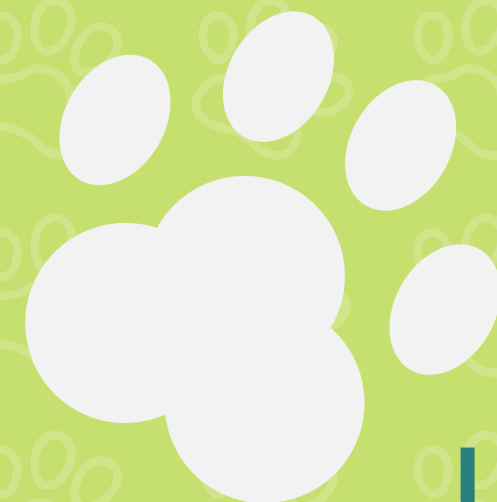

Courses will be 6-7pm weekday evenings. Participants will go through a mock certification test at the end of the course.

Cost: \$90 total for four weeks

Instructor: Debbie Maggitti

Debbie has been involved in pet therapy work for over 15 years. She is currently certified with KPets with her miniature American Shepherd, Lily. She has many years of animal rescue work as a volunteer/fostering dogs/board member/coordinator and has fostered over 85 dogs. She also competes in Nose Work with her dog, Breeze, who is deaf.
